Rohan Singh

+919324519782 LinkedIn Email: rohansingh5594@gmail.com Mumbai, India

Disciplined and results-driven Full Stack Developer with **1+ years** of experience in developing responsive web applications and mobile applications. Hands-on experience in frontend and backend development, API integration, database management, and building scalable application using **JavaScript, Next.js, PHP, Laravel, React Native, HTML, CSS,** and **Bootstrap**. Looking forward to taking on new technical challenges and contributing to innovative software development projects.

Work Experience:

ENATS LLP – Mumbai, Maharashtra

Sept'2025– Present

Full Stack Developer:

- **Full Stack Web Development:** Developed, enhanced, and maintained dynamic web applications using Next.js, JavaScript, PHP, Laravel, MySQL, HTML, CSS, and Bootstrap, delivering responsive and maintainable web solutions.
- **Frontend Development & UI Optimization:** Developed reusable UI components, responsive layouts, interactive forms, navigation menus, and data-driven pages. Improved pagination, scrolling, and navigation behavior to maintain a consistent user experience across desktop and mobile devices.
- **Backend Development & REST API Integration:** Implemented server-side functionality using PHP and Laravel, integrated REST APIs, processed application data, and connected frontend applications with backend services and MySQL databases.
- **Database Management & SQL Development:** Worked with MySQL databases, developed SQL queries, retrieved and updated records across related tables, and troubleshot database errors to maintain data accuracy and application reliability.
- **Git & Version Control:** Used Git for source code management, tracking changes, committing updates, managing code versions, and collaborating on development tasks. Worked with Git-based workflows to maintain and update application code.
- **Linux Server Administration & SSH:** Connected to remote Linux servers using SSH to inspect application files, execute server commands, troubleshoot issues, review configurations, and manage file and directory permissions across staging and production environments.
- **Web Server Configuration & Maintenance:** Worked with Apache web server configurations, URL rewriting rules, file paths, and application settings to support website functionality, troubleshoot routing issues, and resolve server-side configuration problems.
- **AWS S3 & Cloud Storage Integration:** Worked with AWS S3 and other cloud storage solutions to manage website images, documents, media assets, and generated HTML files. Supported file migration workflows and investigated storage access and URL-related issues.
- **CloudFront & Media Delivery Troubleshooting:** Investigated caching behavior, large media files, and file delivery issues affecting website performance and content accessibility. Worked on improving media handling and troubleshooting cloud delivery workflows.
- **Application Deployment & Build Support:** Supported application build and deployment workflows, environment configuration, API URL management, and troubleshooting of Next.js production builds across development, staging, and production environments.
- **React Native & Expo Development:** Developed and maintained cross-platform mobile application features, including screens, navigation, API integration, and UI improvements using React Native and Expo.
- **Production Debugging & Technical Support:** Diagnosed and resolved issues involving PHP errors, API failures, SQL queries, incorrect file paths, permissions, frontend rendering, and server configurations to maintain application stability and functionality.
- **Legacy Application Modernization:** Contributed to developing selected Next.js pages and reusable components for existing PHP-based websites, integrating established backend APIs while maintaining compatibility with existing application functionality.

ACADEMIC & PERSONAL PROJECTS

User Profile & Task Management System:

- **Full Stack Web Application Development:** Developed a responsive User Profile web application using PHP, MySQL, HTML, CSS, Bootstrap, and JavaScript, featuring user authentication and profile management functionality.
- **User Authentication & Profile Management:** Implemented user registration, login authentication, session handling, profile photo uploads, and user detail updates to manage user accounts efficiently.
- **CRUD & Task Management:** Developed task management functionality supporting Create, Read, Update, and Delete (CRUD) operations, including task creation, editing, deletion, and completion tracking.
- **Frontend Validation & Responsive UI:** Implemented client-side JavaScript validation and designed a responsive user interface using Bootstrap to improve data accuracy, usability, and cross-device compatibility.

CineVault – Movie Management Application:

- **MERN Stack Application Development:** Developed a movie management application using MongoDB, Express.js, React.js, and Node.js**,** providing dynamic movie registration and movie listing functionality.
- **Backend Development & REST API Integration:** Developed RESTful APIs using Node.js and Express.js to handle movie data operations and enable communication between the frontend and backend.
- **Database Management:** Integrated MongoDB to store and manage movie information, including movie titles, descriptions, images, and directors, with structured data handling.
- **Frontend Development & Dynamic Rendering:** Utilized React components and hooks to manage application state and dynamically display movie details, creating an interactive and user-friendly experience.
- **Form Validation & Responsive UI:** Implemented client-side form validation and designed a responsive homepage with intuitive navigation using CSS and Bootstrap.
- **Technical Documentation:** Documented application architecture, API endpoints, and key functionalities to support maintainability and future enhancements.

Technical Skills:

- **Programming Languages:** JavaScript, PHP, SQL
- **Frontend Technologies:** Next.js, React.js, React Native, HTML5, CSS3, Bootstrap
- **Backend Technologies:** Node.js, Express.js, Laravel, REST API Development & Integration
- **Databases:** MySQL, MongoDB
- **Cloud & Storage:** AWS S3, CloudFront
- **Server & Deployment:** Linux, SSH, Apache, Environment Configuration, Build & Deployment Support
- **Version Control:** Git, GitHub
- **Development Tools:** VS Code, npm, Expo
- **Core Competencies:** Full Stack Development, CRUD Operations, Responsive Web Design, Database Management, API Integration, Debugging & Troubleshooting

Education:

Course	University/Board	Year of Passing	Performance
B.Sc. IT (Bachelor of Science in information Technology)	Smt. K. G. Mittal Institute of Management, Information Technology and Research	June'2024	6.95/10
Higher Secondary	PD Turakhia Junior College of Commerce and Science	Feb'2021	72.67%
Secondary Schoo	Shivaji Vidya Mandir High School	March'2019	63.40%
Full Stack Developer	SDAC InfoTech	July'2025	July'2025

CERTIFICATIONS

- **JS Full Stack Developer — SDAC**
- Successfully completed the course from 6 August 2024 to 20 June 2025.
- **Grade:** A
- **Certificate:** https://drive.google.com/file/d/1oFL0dVD5p2PNPjLd4ORSGhscVOissay1/view
